

Do not write your name on the assignment. Write your name only on the back of this sheet of paper and staple your answers on the front of this sheet of paper. Failure to follow these directions will cost you 1 point on the assignment.

If the due date is too early in the week, we can change it.

We will be meeting during my office hours on Monday. Come by some time between 3:00 and 5:00 to discuss this homework assignment and the material you are reading.

This assignment covers pages 33 - 85.

1) (35 points) Use the table below to calculate the Y^{SA} . Use the computer to do this. Send me an e-mail with the file of the calculations attached so that I can read the information. On the written sheet, write a one sentence explanation as to how each column was calculated.

Year	1 st Quarter	2 nd Quarter	3 rd Quarter	4 th Quarter
1995	940	960	1080	1070
1996	980	1010	1210	1180
1997	1180	1190	1300	1270
1998	1210	1260	1400	1330
1999	1250	1300	1480	1400

2) (20 points) Do question #2, parts A and B, on page 58. Show all work.

3) (15 points) What are the general categories of items on each side of account #1 in table 3.1 on page 65? Why should the two sides total to the same? (The same logic holds for the other accounts in that table.)

4) (10 points each)

A) What does the 20,908 in column #1 of table 3.4 mean? How do you know?

B) According to table 3.5, what industry had the greatest percent increase in output from 1987 to 1993? How can you tell?

C) What does the number 24 under SIC in row 64 of table 3.5 mean?
