

The Last One!

Do not put your name anywhere on the assignment, other than on the back of this sheet of paper. Staple your answers on the front of this sheet of paper. Failure to follow these directions will cost you 1 point. Your assignment will be typed, except graphs can be drawn by hand and mathematical equations can be done by hand. Failure to type it will cost you 10 points. If you do double-sided printing or print on the back of scrap paper, I will give you one additional point.

- 1) (20 points) During the 1990s, the Indian government reduced its tax rates greatly. Why did they do this? Do you think it was a good idea?

- 2) (20 points) Given the changes in the Indian economy since the book was written, do you think that India has moved in the correct direction for future growth or do you think they are still headed for slow development? Explain your logic.

- 3) (20 points each) For each of these problems, give evidence that India still has a problem with this. What could the government do about the problem? Explain how your proposal would help India.
 - A) Illiteracy
 - B) Inequality of the sexes
 - C) Population growth
