

Place your name on the back of this sheet of paper and nowhere else. Staple your answers face up on the front of this sheet of paper. Failure to follow these directions will cost you 10 points. Your assignment will be typed, except graphs can be drawn by hand and mathematical equations can be done by hand. ~~Turn in the Excel file via Canvas. Place your name on an otherwise blank page of the Excel file.~~ Failure to type this assignment will cost you 10 points. If you use double-sided printing or print on the back of scrap paper, I will give you one additional point.

The homework number is so that the assignments' numbers will correspond with the lab numbers. The struck out section of the instructions is struck out because it is not applicable.

- 1) (15 points) What part of my webpage <http://www.WCsaplarJr.info> do you think is most helpful? Explain your logic. Is anything missing which would be helpful? If you were a Managerial Economics major, then which courses would you be taking *comps* in on Tuesday Morning? According to the boxes in yellow on my main page, which of the 25 most requested skills on LinkedIn are taught to our Economics majors?
- 2) (15 points) What is meant by “timing”? Why would we want a variable to have that if we are making predictions? Explain your logic.
- 3) (15 points) What is meant by “currency”? Why would we want a variable to have that if we are making predictions? Explain your logic.
- 4) (15 points) The Conference Board uses “Manufacturers’ New Orders for Non-Defense Capital Goods” as a predicting variable while the AIER uses “Manufacturers’ New Orders for Core Capital Goods”. Which do you think is a better variable to use? Explain your logic.
- 5) (10 points each) For each of the following, determine if it is procyclical or countercyclical. Briefly state your logic. Also determine if it is leading, lagging, or roughly coincident. Briefly state your logic. Answer each part in a different paragraph.
 - A) New Private Housing Permits
 - B) Employees on Non-Agricultural Payrolls
 - C) Ratio of Consumer Debt to Personal Income
